

Resent Advice

(Continued from Page 1)

welcome to casual visitors.

It is easier to get into the big leather chair in front of his plain office desk than it is to secure a seat at one of the tables in the Queen Hotel's dining room.

He even comes on the line, as a matter of course, when reporters call him by phone.

The Liberal cabinet big wig in Ottawa is being invited by "in direction" to stay home, because it is held the people in New Brunswick are independently-minded enough to resent being told by "outsiders" how to vote.

OTTAWA HAS BEEN MAKING mistakes difficult enough without one of the Yanks-Sunbury with a personal Cabinet appearance.

Last week's price increases—particularly of bread and flour—caused worry.

"I'd I'm been consulted," laughed Premier McNeil, "I would have advised delay in raising the price of de-lux until later."

Ottawa has cancelled more than one mail contract in York-Sunbury because tenders were a few dollars higher than expected.

And that, admitted Premier McNeil, "hasn't been helping."

Then September 14, when the York-Sunbury Reconstruction Minister how announced to Dominion news that he would be paid on cost raised in New Brunswick's Mills field, such assistance was neither available nor in the national interest.

The Mills field is in York-Sunbury, and the Progressive Conservative and the CCF the Mills field is in York-Sunbury.

Subsidized some \$10 per ton. No Scotia cost has been under-sold the Mills product even in New Brunswick, and 300 700 York-Sunbury miners are on "short-time."

MR. HOWE'S cold-shouldering of the Mills mine hit his Page One under a large heading in the York-Sunbury Journal which has some 2,500 subscribers in York-Sunbury and in the Yukon.

The Progressive Conservatives had an engraving made of this particular section of the York-Sunbury Journal's front page, ran off 20,000 copies and mailed them to every voter in York-Sunbury.

The reconstruction minister happened to be in Saint John this week, so the Progressive Conservatives bought generous areas of white space in the newspapers to "welcome" and ask him eleven sharp questions.

Digging into Hansard for years back, they came up with a quote in which Mr. Howe told the Maritimes to stop "yapping."

Into these eleven questions, the Progressive Conservatives have even worked two of the five Edmon-ton girls from the Dayview Peninsula camps in Western Europe who led the migration of the York-Sunbury workers to Canada and found themselves made in the Howe home.

SO FAR, ALL THE FIRE has been coming from the opposition, without drawing from the Liberals.

Premier McNeil and his local campaign-bell with Dr. Gregg already a member of the Dominion cabinet, they have a pat hand.

The "low" Fraser Minister Frank Bridges was tremendously popular for York-Sunbury had initiated preliminary work on:

1. A \$1,200,000 airport;
2. A new Federal Building;
3. A district income tax office;
4. New armories.

The Liberals contend, on the platform and in their campaign advertising that only an MP who is a member of the cabinet is in a position to push these plans to realization.

Frederick's Mayor Ray T. Forbes has a letter on file from Mr. Howe, in which the reconstruction minister undertakes to begin actual construction work on the airport early next year.

TALK HEARD openly in the hotel lobbies and on the street, in the shops and the offices—that the York-Sunbury Reconstruction Minister and Gregg, these projects will be dropped by Ottawa.

At this, Premier McNeil scoffed. "They couldn't be dropped," he explained, "but naturally, a member of the cabinet could push the work along much faster than a back-bencher in the opposition."

The Liberals are calling this "in-direction."

The Progressive Conservatives speak of it as "blackmail."

Not so very odd, it happens just at this time, a great deal of construction work is being done on New Brunswick's highways.

Evidence of it is in plain view, for all to see, coming in over the Canadian Pacific between McAdam and the Maine border and Frederick Junction.

Not in the work confined to any particular section, there being a general program of highway improvement generally throughout York-Sunbury.

"A happy coincidence," explained Premier McNeil, "since the contracts were let some time before this by-election became necessary."

EMPHASIS in The Liberal campaign—on the platform, in the newspaper advertisements and in the "plugs" by radio—is heavy on the fact that the Liberal membership and what it will enable him to do for York-Sunbury.

The campaign is being handled by Lawrence (Larry) Jones, former Ottawa Journal and Toronto Star copy editor, now a member in the "Creative Section" of Editorial Services of Toronto.

Handled that in close consultation with Premier McNeil.

So close to this liaison that the chief of the late Mr. Bridges, and setting up headquarters in Premier McNeil's administration building.

For Liberals, things seem to be going very well. So smoothly in fact, the local campaign is being run on the slogan "No Help Wanted" for the benefit of the school groups in Ottawa.

Cabinet Shuffle

(Continued from Page 1)

held by Deputy Prime Minister Herbert Morrison.

Mr. Morrison, who is the prime minister and leader of the House of Commons, and in addition will co-ordinate functions in other economic matters. He will take over close supervision of the parliamentary business which Greenwood has performed.

Wilson, who failed in a hard try last summer to negotiate a commercial agreement with Russia, presumably will carry on along lines already set by Sir Stafford.

Psychological gratifications derived from pleasurable meals are as important to health as are the vitamins and minerals essential to our diet. This means eating should not be allowed to become a chore, nor a race against time, say nutritionists.

Smuggler Is Jailed For Own Protection
BOSTON, Sept. 26. — (AP)—Chang Cheong of Singapore was held on \$20,000 bail on smuggling charges Monday after a government prosecutor told the court

that the woman faced possible death at the hands of an underworld narcotics ring if released. Cheong is charged with attempting to smuggle into the United States \$1,000,000 of gum opium aboard the British freighter Silvarloch.

Head of Stanfield Advertising Agency Business Visitor

The Kremlin in Moscow covers about 53 acres.

Here for conferences with branch executives and city business firm heads is Harold F. Stanfield, president of the Harold F. Stanfield Advertising Agency, Montreal, shown in the centre above. At the left is David G. Wood, account executive for the branch here and on the right is T. C. Schofield, branch manager for the firm in Alberta.

Executive Says:

Advertising Volume Now at Record High

Advertising volume in Canadian newspapers, magazines and radio is at an all-time high and advertising has always been an accurate barometer of general business conditions, Harold F. Stanfield, Montreal, president of the Harold F. Stanfield Ltd. advertising agency, said here Monday.

Mr. Stanfield, on a tour of company branches in the west, is conferring here with T. C. Schofield, manager, and David G. Wood, account executive, at the Edmonton branch of the firm.

The Edmonton branch, handling all business for the firm in Alberta, has been operating just 18 months, but on a business potential basis is leading all Dominion branches in volume of business transacted, Mr. Stanfield revealed.

"There is a wide field for advertising counselors in Alberta," Mr. Stanfield observed.

One of the features of the work done by the Stanfield agency is the handling of publicity for the Macdonald Brier Dominion Curling championship event, an annual

affair to select the best curling risk in the nation.

Next winter the finals will be held in Calgary. They were in St. John, N.B. last season, with the Manitobans risk winning the crown.

Reg. Geary, former Calgary advertising man, is in charge of the publicity for the curling title through the Stanfield Agency.

Mr. Stanfield, a native of the Maritimes, plans to remain in Edmonton until Wednesday.

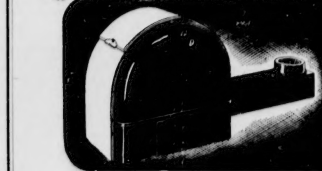

New Zealand Airmen Enjoy Treatment

VANCOUVER, Sept. 26. — (CPI)—Official thanks from the government of New Zealand to the city of Vancouver and its citizens for their treatment of the 8,000 New Zealand airmen who trained here during the war was received by city council today from Prime Minister Peter Fraser and James Thon, New Zealand high commissioner.

U.S. Government "Black" Moves Into "Black"

WASHINGTON, Sept. 26. — (AP)—The United States government's budget moved into the black Monday for the first time this fiscal year. Treasury records disclosed a surplus of \$14,042,407 due to a strong flow of quarterly corporation and individual income tax payments since mid-September. These payments more than wiped out a deficit of over \$1,500,000,000 that existed early this month.

Julius Caesar paid his bodyguards the equivalent of \$23 a week in gold.

You get all 3 with a FAIRBANKS-MORSE Automatic COAL STOKER

You get every comfort and convenience usually found only in more expensive installations when you install a FAIRBANKS-MORSE Automatic COAL STOKER. You get a hopper that feeds coal into the stoker—no more fuel bills, too. That's because FAIRBANKS-MORSE burn low-cost stoker coal and extract every unit of heat from it. Furnace-tending time is cut—one filling of the hopper a day is usually enough—and house odors, smoke, and gases are eliminated. A simple adjustment of the thermostat keeps your home at the temperature you want. See the new FAIRBANKS-MORSE Coal Stoker today. Remember, no other kind of automatic heat gives you this comfort at such low cost!

Free Pansy Seeds Offered by Grower

J.H. Osella of Alberta Beach, owner of a garden growing about 40 different types of flowers, announced yesterday that he will

send a packet of pansy seeds to any other type, and included in a letter of 200 colors, a "beautiful snow-white type."

PICKET LINE QUITS
The picket line which has been in regular attendance in recent weeks at the Scott Fruit Company, has been discontinued. It was learned on Monday, Sept. 26, that the staff of the Canada Dry Ginger Ale Company has voted for arbitration in its dispute with the company management.

PAGE THREE
"gladly send" free pansy seeds to readers of The Edmonton Bulletin, provided they enclose a stamped, self-addressed envelope with their request. Mr. Osella said he has raised more pansy seeds than any other type, and included in a letter of 200 colors, a "beautiful snow-white type."

Polish Workers Seek New Life in Canada

Norman Cribbens, who has just completed a tour of the British and United States zones in Germany, describes in the following article a visit to a displaced persons' camp. — Editor.

By Norman Cribbens

SOLLINGEN, Germany, Sept. 30.—(CP)—Capt. F. J. Lorrain, brisk Toronto schoolmaster, met recently with the Canadian Army, now controls a settlement of 2,300 displaced Poles housed in derelict German homes scattered over a two-mile area of Sollingen.

WHILE MOST OF THE younger male workers are employed by German cutlery manufacturers at an average of 40 marks (the weekly), many have set up private plants with their own knitting and spinning mills, carpentering and tailoring shops, watch and clock repair and boot and shoe-making stores. All grow vegetables on leased land and a few plots have blossomed into small farms.

"If Canada wants real workers, we can supply them," Capt. Lorrain said. "You, I think Canada will have to broaden her policy somewhat. At present Canada will not accept dependents and Polish workers can hardly be expected to leave their families behind while they seek a better life overseas."

Sollingen is one of 75 displaced persons settlements throughout the British zone which have already supplied large numbers of lumbering, agricultural and domestic workers to Canada, England, France and Belgium.

FIVE HUNDRED Polish lumbermen were recruited for Canada recently and there has been a further request for 200 domestic workers who will be selected from different settlements by a Canadian screening committee now traveling the Ruhr valley.

Of all countries asking for Polish labor, only France and Belgium have offered to take dependents, Capt. Lorrain said. Britain wants Polish coal miners, but only single men.

These Poles have grown together through mutual adversity and many single men are unwilling to leave their friends. They would rather participate in a mass emigration scheme.

Capt. Lorrain was seconded from the Canadian Army to British Military Government in Germany when the war ended. He is on extended leave of absence from the Toronto Board of Education.

To Start Tests At Plant in Spring

Nothing could prevent a start on test runs at the pilot plant and within the next two weeks the extraction of oil from Alberta tar sands by next spring, Hon. W. A. Fallow said Tuesday.

Fallow said Tuesday he had returned from an inspection trip at Bitumtsu, where the \$500,000 government-financed project is under construction.

"It is thought inadvisable to commence operation during the winter months, but rather to see that everything is in readiness for a start on the trial runs as weather will permit in the spring," the minister said.

All equipment and material is now on the site of the plant and within the next two weeks the buildings will all be closed in and the work on completing the connecting links will be done without hindrance by the cold weather, he said.

He was accompanied on the trip by George Clark, director of purchases, and William Fotheringham, manager of the Canadian Brown Steel Tank Company.

Father Tomas de Berlanga, a Spanish Dominican, carried the banana plant with him when he sailed to Santo Domingo as a missionary in 1516.

Delay Sentence On City Juvenile

A 15-year-old youth, a ward of the government, with an unblemished record in juvenile court, appeared for the first time in city police court Monday and was given a chance to prove himself better within the next few months before receiving sentence.

The youth, charged with eleven theft offences, was remanded until March 29 for sentence following his appearance before Magistrate A. I. Miller. He had previously been before juvenile authorities on the charges and was waived to city court.

The juvenile pleaded guilty to stealing eleven electric razors and one camera from as many city stores. Previous to these thefts he had worked on a farm for seven months. When asked why he changed he said that farming and himself did not get along well together.

Charged with obstructing a peace officer, Jose C. Warring, 3167 St.

Taking Series Of Photos in City

Considerable publicity for Edmonton will result from a series of street and Steve Morris, also of Edmonton, drove lines of 25 and 200 and 250 and 200 respectively. The incident occurred at 101 street and Jasper avenue when Constable Donald McNaughton, allegedly called Warring back while crossing the intersection against the constable's signal.

Mr. Hunter has arrived in Edmonton and has been taking pictures of the city which will demonstrate its governmental, industrial activities, and also its position on the cross roads of world aviation, and as the gateway to the north.

The pictures will be included in publications being prepared for world-wide distribution by the Dominion department of external affairs.

PUZZLE No. 9

Answer will be found in List No. 9.

Setting Up Depots Send Food to U.K.

Setting up of depots in connection with the Alberta government's support for the food for Britain campaign is making rapid progress. Premier Ernest Manning said Tuesday, W. A. H. Kent, of the veteran's rehabilitation branch, has been appointed to supervise the administration of the work of the general policy committee.

Mr. Manning said the general policy committee was made up of those organizations which had attended the preliminary meeting held in his office last week.

Depots will be set up in the major cities of the province to which the public will be requested to send money contributing. With the funds thus received, the committee in charge will buy such foods as are considered to be in greatest need and will make up standard parcels which will be sent to England in bulk.

Mr. Manning urged that contributions for general distribution be in money.

Individuals in Alberta who wish to send food parcels to individuals in the Old Country will be requested to take their parcels to the nearest depot where they will be bulked with other parcels intended for individual distribution.

Great factor in bulk of parcels is the saving which may be effected through shipment of parcels in car-load or greater lots.

The best cigarette NEWS for 40 years
...THE FILTER TIP
means "No smoker's
throat for
me!"
WHAT THE
FILTER TIP DOES
It stops particles of tobacco getting into the throat.
It is the common-sense method of preventing smoker's throat because it effectively retains irritants.
It guards physical fitness.
It brings out the flavour and makes the smoke delightfully sweet and cool.

Until you have smoked a du Maurier cigarette you cannot realise what a rich fragrance lies hidden in the choice Virginia leaf. The du Maurier filter tip stands guard, barring the way to all impurities that are liable to affect your throat. 'Now... there is no heat or harshness, no bits and pieces, only the fine full flavour of pure tobacco for your complete enjoyment.
20 for 38 cents There'll never be a better cigarette

Eighth Inning
Homer Clinches
Flag For Angels
LOS ANGELES, Sept. 30.—(AP)—Clarence Mader's base-loaded homer in the last half of the eighth broke up a tight pitchers' duel and gave Los Angeles Angels the Pacific Coast League pennant Monday night in a crucial playoff game with San Francisco's Giants.
Mader's blow, which was followed by another circuit drive by Larry Barton, broke up the blazing mound battle between the Angels' Cliff Chambers and Sealy Jack Brewer before a capacity crowd of 25,000, largest of the season at Wrigley Field.
The victory, breaking the season-long tie between the two clubs, gave Los Angeles a final standing of 106 wins, 81 losses and 367 percentage to San Francisco's 104-83-362. It was the hottest race in PCL, among San Francisco's 104-83-362, Los Angeles 106-81-367, St. Louis 104-83-362, and St. Louis 104-83-362.

Bruins Assured
Lucrative Season
BOSTON, Sept. 30.—(AP)—The Boston Bruins management Monday night announced 91 per cent of its season ticket holders have renewed for another year and that none are available for new applicants.
The Bruins, who open their National Hockey League home season against New York Rangers Oct. 19, will continue their policy of putting 2,000 tickets on public sale for every home game.
Daily Eliminated From Tournament
BIRKBECK, England, Sept. 30.—(AP)—Fred Daly of Ireland was ousted from the London Daily Telegraph's amateur professional tournament match play tournament Monday in the first round, thwarting his bid to pick up Britain's two fastest golf courses in 1951.
FRITTERING AWAY a three-up lead after seven holes, Daly and his amateur partner, Cecil Ewing, fell 2-1 to Joe Carr and Fred Bullock. Both Carr and Ewing were Irish contributors to the 1947 British Walker Cup Team.

Two Seasons Left?
Toe Blake Out After
Cowley's Point Mark
MONTREAL, Sept. 30.—(CP)—This, for veteran hockey man Toe Blake, is the "big year," season no. 13 under hockey's big top.
The captain of Montreal Canadiens signed his contract last Saturday, on terms similar to those of last year and Paul (Le Canada) Parizeau reports that Blake's objective is to equal the all-time record of points registered by Bill Cowley, famous centre who retired at the end of last season from Boston Bruins.
In this Blake has no easy task. Cowley scored 180 goals and 353 assists for 533 points while Blake, during his 12 seasons in the National Hockey League has 500 points made up of 228 goals and 277 assists. That leaves him 43 to go this season.
NOT MANY will argue that Blake has more than the current season left in the big time, but Parizeau says that after watching hurrying Hector in training it seems obvious that he has at least one more good season left in him.
If playoffs are taken into account, the difference between Cowley and Blake's totals is only 24 points. In those series, the Bruins centre star obtained 12 goals and 34 assists for a global total of 46, while Blake scored 27 goals and was credited with 40 assists for a total of 67.

Paul Gallico

Says:

The conception of a free election as practiced in Bulgaria, Hungary and other Communist-controlled states of middle Europe, not to mention the Soviet Union, seems to me quite fascinating. It would be a little getting used to, particularly if you have been brought up as a Canadian or American citizen. But, you have been reading the papers with regard to the recent elections in Hungary, let us say, you surely have been struck by the practical aspects of an election operated by the Soviet Brotherhood. None of that nervous all-time election night biting the fingernails and watching the returns come in over the ticker. Over there the boys know who wins three days before the polls open.

Our quaint idea of putting up two or three candidates and actually permitting the citizens to choose one of them must seem quite naive to the average middle European who has been born, bred and steeped in the practice of home sovereignty for centuries. In Europe if the other guy has a chance to win it is conceded that there has been shoddy mismanagement somewhere.

Can't Be Right!

It is a realistic attitude that has me a little worried as to how the Soviet Union and satellite nations are going to like the way the foot races in the Olympic games are run in which the athletes are lined up in lanes, a gun is fired and the first one at the tape gets the medal. This free-and-easy method of staging a contest will be considered practically rank discrimination against the Soviet Union. Any contest they can't lose is definitely bourgeois-capitalist anti-Sovietism.

However, it is not sport but the practical aspects of election that is the topic of today's thesis, and I thought you might like to know what the forthcoming U.S. presidential election year will be like, as I gather they devoutly hope so, some black day.

Well, let's see. There will be the Communist Party, probably non-existent that martyr brother Elder, the Republicans, the Democrats, the Liberals and the Socialist parties. Nominating—but what am I saying? That's too many parties. You cannot stage an honest election, Communist election with five parties. The whole idea is absurd and besides, dangerous. What we want is one big, loving party, all Communist. Then you can have a real quiet, safe election.

They'll Have to Go
So a lot of the boys will have to go. It's a pity, but the way of the world is that the boys who are not nice fellows, but a nuisance under the microscope of a European type of a satisfactory election. Since Bob Taft is titular head of the Republican Party, many of the boys will have to go. The head will be removed. He will be arrested for treason and having presidential ambitions and launching a plot to conduct an honest campaign and election. Tom Dewey will likewise be apprehended, accused of treason and kept by his desire for the nomination a secret from the American people and liquidated at dawn. Stalin will be seized, given a passport and sent to Alaska for a few years. The delegates, district leaders and officials of the Republican Party will be herded into concentration camps, half of them shot and the other half starved. An election will also be made of a few ordinary citizens on the Republican rolls

Telephone 26121 EDMONTON, ALBERTA, TUESDAY, SEPTEMBER 30, 1947 Page Nine

Two are Arrested Dangerous Driving

Two motorists were arrested Monday on dangerous driving charges by police. As a result of the two accidents one pedestrian suffered minor bruises and abrasions.

One of the arrested men is William Fleming, 1262 124 street, who police allege was the driver of an auto which struck Robert Gout, 411, at 95 street and 104A avenue, about 11:35 p.m. Gout was taken to the Royal Alexandra hospital but was released following an examination and treatment.

Al Shechter, 1822 30 street, told police he was following Fleming's car when he saw someone, which looked like a sack, fly out from the front of Fleming's auto. On coming closer he found the object to be a man.

Fleming said he was stopped by a car blowing a horn behind him. He told the person in the car then told him he had struck a man.

Police said the second man arrested was Steve Cherniack, 9410 105A avenue. He is alleged to have been travelling north on 95 street and just north of 104A avenue, he struck a parked truck on the west side of the road.

Cherniack told police that while going through the intersection he served to the left and struck the truck. The accident occurred about 3:15 p.m. Monday. Owner of the parked truck is Walter Adams, 9232 104 street.

In a police court Tuesday morning the charge of dangerous driving was withdrawn against Fleming and he pleaded guilty to a charge of failing to return to the scene of an accident. He was fined \$60 and costs and his driver's license suspended for four months. The alternative jail term was three months.

Cherniack pleaded not guilty to dangerous driving charge and was remanded until Oct. 7 for trial.

Takes Over Farmers May Start Own Packing Plants

S. W. Sheppard, Edmonton manager of the Alberta Livestock Co-operative, said today he believed the time was ripe for the province's approximately 80,000 farmers to end their stock marketing problems, by going into the meat-packing industry themselves.

By each farmer contributing a minimum of \$100 toward a packing plant fund, the total would reach \$8,000,000 and for this figure at least two fully up-to-date plants could be completed," said Mr. Sheppard.

The plants would be operated cooperatively with the members sharing in patronage dividends, and would be staffed with union workers who would also share in benefits.

Annual losses to stock raisers through repeated tie-ups in lairage and management disputes already amount to a \$100 million on the average that a \$100 contribution from every farmer of Alberta, he said.

Such a scheme would be supported wholeheartedly by the Alberta Farmers Union. A. J. Beutellier, union secretary-treasurer said. He was going to get in touch with officials of the United Farmers of Canada (Saskatchewan section) for their viewpoint. Membership of the two farm unions is claimed to be more than 100,000.

Mr. Beutellier added that a delegation of the AFU would meet with Premier Ernest Manning on Wednesday with a view to learning the province's stand on a rebid of the application for a 20 per cent increase in freight rates by the Railways Association of Canada.

He said the delegation also would take up the question of the farmers' interest in the present article of packinghouse workers.

Official Change At West Command

The official turning over ceremony of command from Maj. Gen. F. Worthington, CB, MC, MM, ED, to Maj. Gen. M. H. S. Penhale, CBE, new general officer commanding Western Command, Canadian Army, at a special turning over ceremony Monday afternoon. The new commanding officer was recently promoted to major general from the rank of brigadier.

Annual losses to stock raisers through repeated tie-ups in lairage and management disputes already amount to a \$100 million on the average that a \$100 contribution from every farmer of Alberta, he said.

Such a scheme would be supported wholeheartedly by the Alberta Farmers Union. A. J. Beutellier, union secretary-treasurer said. He was going to get in touch with officials of the United Farmers of Canada (Saskatchewan section) for their viewpoint. Membership of the two farm unions is claimed to be more than 100,000.

Mr. Beutellier added that a delegation of the AFU would meet with Premier Ernest Manning on Wednesday with a view to learning the province's stand on a rebid of the application for a 20 per cent increase in freight rates by the Railways Association of Canada.

He said the delegation also would take up the question of the farmers' interest in the present article of packinghouse workers.

Visiting City

George W. Stephen, Montreal, vice-president in charge of traffic, Canada Pacific Railway, arrived in the city early this morning, in the course of a contact inspection tour. He will remain in Edmonton until late tomorrow evening, and will visit various railway offices and facilities, which come under his department. He is on his way east after a business visit to the west coast.

Bill Mackinnon, better at the Globe Barber Shop, was third in the city early this morning, in the course of a contact inspection tour. He will remain in Edmonton until late tomorrow evening, and will visit various railway offices and facilities, which come under his department. He is on his way east after a business visit to the west coast.

Here's How They Figure It: Edmonton Fans Favor Dodgers To Take Series From Yankees

By JACK MACLEAN

Edmonton baseball fans favor the Brooklyn Dodgers in the World Series. That, at least, was the result of a combination photographic-nova poll taken by The Edmonton Bulletin yesterday, when three out of four subjects picked the Bums to take the fall classic starting today in Yankee Stadium.

Along came Moira Furlong, 12027 108 street, who has been with the police force for the last year, was interviewed. Admitting that he hasn't followed the baseball too much this year, Joe nevertheless, was certain that the Dodgers would overcome the Yankees in the best-of-seven series. "The Dodgers are a better team all around, and I might even go as far as to say that it won't be so much as six games."

Along came Bill Mackinnon, 12121 86 street, a worker in the North West Text and Awning Company. He said, "I don't really know anything about baseball, and to tell you the truth I don't even know who the Dodgers are playing, but from what I have heard I favor the Bums to win the series."

Bill Mackinnon, better at the Globe Barber Shop, was third in the city early this morning, in the course of a contact inspection tour. He will remain in Edmonton until late tomorrow evening, and will visit various railway offices and facilities, which come under his department. He is on his way east after a business visit to the west coast.

Delton School Opening Is Delayed

The Delton School, 80 street and 129 avenue, scheduled to open Oct. 2 will not be open until Oct. 12, according to R. S. Sheppard, superintendent of schools. Mr. Sheppard stated that the delay was beyond control of the school board.

District Old-Timer Is Found Dead

Donald McArthur, 12-year-old widower of the Estevanite district, was found dead last night in his farm home, one-half mile east of Estevan, by Const. J. W. Hill of the town detachment, according to an RCMP here. He was believed to have died Sept. 3.

Residents of Estevanite stated that he had complained of a heart condition for some time. Friends from Carrot Creek who had visited Estevanite on Sunday night reported to Constable Hill that he was in Carrot Creek some time ago but did not show up. This prompted Const. Hill's visit to McArthur's home.

The body will be taken to Calgary for a funeral service and burial. Constable-McArthur's funeral home is in charge of arrangements.

Community Hall Nearing Completion

Residents of the North Edmonton district, through the assistance and co-operation of North Edmonton Community League members, have nearly completed construction of a community hall on the league grounds. More funds are required to complete the interior and there are expenses to be raised through a community drive for support and membership in the near future.

A general business meeting will be held by the league Wednesday at 8 p.m. in the Anglican Church hall where election of officers will take place. After the meeting a technical film entitled "Who is my Neighbor" and a comedy film will be shown.

Bank Official Business Visitor

L. S. Mackery, Toronto, assistant general manager of the Imperial Bank of Canada and assistant manager of the bank in Edmonton for seven years, prior to promotion, is a business visitor this week.

With him is R. Carson, Winnipeg, superintendent of western branches, and also a representative of the Edmonton main branch of the bank.

Mr. Mackery went from Edmonton to Winnipeg on being promoted.

He plans to remain here until Friday conferring with Edmonton bank officials. Mrs. Mackery is with him on the present tour of his western branches.

Warmer Weather Forecast for City

Edmonton citizens are in for warm and sunny weather, according to the weather bureau. Temperatures today and Wednesday will rise to 15 above. Light winds will prevail both days.

The maximum temperature yesterday registered 15 above at 3:30 p.m. and the overnight low read 28 above at 5:30 a.m. Estimated temperature tonight is 42 above.

Engineers Parade Will Be Discussed

Extension to the Macdonald hotel, and the beautification of the approaches to the hotel was discussed at a meeting between Mayor Harry Ainlay and the city commissioners and R. C. Vaughan, chairman and president, Canadian National Railways, scheduled for 2 p.m. Tuesday.

They also will discuss extensions to other CNR facilities in the city, and several railway matters. Mayor Ainlay stated Tuesday that he would endeavor to get a commitment from Mr. Vaughan on the hotel extension, and also on the beautification plan during this visit.

Members of the international congregation on the university campus are shown above gathered in the Varsity Truck Shop. From left to right are: Marcel Goldenberg, Cairo, Egypt; Kilburn Urquhart, Kingston, Jamaica; Ian Dickins, Geelong, Australia; Edward Sherlock, Suffolk, Eng. Karl "Teddy" Smith, Utrecht, Holland; and James Verghese, a graduate from the University of Madras, India. Not in the picture is Zdenek Pech, Prague, Czechoslovakia. —Photo by Blind.

Campus Goes International

U of A Students Come From Far Off as Egypt

As the University of Alberta continues to expand at its home grounds here in the province, its reputation is spreading to all corners of the world. This year the campus is taking on the shades of internationalism.

REGISTRATION at the university this year includes students from Egypt, Czechoslovakia, India, England, Australia, Holland and Jamaica.

The students concerned are: Marcel Goldenberg, of Cairo, Egypt, who is continuing his engineering course after successfully completing his first year here during the 1946-47 session; Zdenek Pech, of Prague, Czechoslovakia, who arrived in Edmonton recently to study political economy; James Verghese, a graduate in chemistry from the University of Madras, who is studying chemical engineering; Edward Sherlock, Suffolk, England, who is taking postgraduate work in chemistry; Ian Dickins, of Geelong, Australia, who last week entered the combined course of arts and law; Kilburn Urquhart, fourth year agriculture student from Kingston, Jamaica; and Karl "Teddy" Smith, Utrecht, Holland.

ALL SEVEN students had heard of Canada as a land of opportunity, and some particularly favored Alberta. Marcel Goldenberg was working in an American PX in Cairo after high school graduation. He arranged a flight to Chicago and after speaking with the Canadian High Commissioner in Egypt, he decided to pursue engineering studies at the University of Alberta. Marcel speaks English, Arabic, French, and Italian.

HE WANTED to pursue his studies in English, and felt that in a "new" country like Canada, there would be more opportunities after graduation. As a result of his letters, his friend Costa Chrysanthos, also of Cairo, came to enroll later this term in engineering at Alberta university. Zdenek Pech, or "Stan" as he is called in Canada, came to U of A

Meddling Led Nazis to Trap

Hitler Intervention Won Battle of Falsae Pocket

SOUTHAMPTON, England, Sept. 30. — (Reuters) — Field Marshal Lord Montgomery, chief of the Imperial General Staff, yesterday revealed that the battle of the Falsae Pocket in August, 1944, which followed the Normandy landings was not in the plan of either the Allies or the German high command, but was due to Hitler's intervention.

Montgomery unveiled a plan on board the new cross-channel steamer Falsae to commemorate the victory of the Anglo-American forces in Normandy.

He said: "The design was to land on the beaches and then with our left on Caen to draw the main enemy strength into the pocket, to break out on the right or west of the flank, to sweep round in a great wheel up to the Seine, over which we planned to destroy all the bridges."

"Just when the great wheel was going nicely Hitler intervened in the battle and ordered that a big force should be assembled which should strike westwards to the search in England, he received an Alberta Research Council fellowship on which he will continue his studies in chemistry in the province."

Australian Ian Dickins has been in Edmonton before. During the war, he was stationed in Edmonton in 1941, and received his wings at Penfold. His wife is the former Joan Virtue of Cambridge, who graduated from U of A with a B Ed degree. During his stay here, Ian got to like Canada well enough to attend university here, and plans to remain permanently.

KILBURN "Bennie" Urquhart, native Jamaican, has become well-known on the campus for his athletic prowess. "Track is his speciality. He has been studying agriculture, and has enrolled for his fourth year. Bennie is a native of an estate near Kingston, Jamaica.

The seventh member of the International congregation is Karl Smith, also known on the campus as "Teddy". He is a graduate in theology from the University of Utrecht, Holland. "Teddy" heard about Canada from Dominian soldiers during the war. Arriving in Canada in June, he is staying at St. Stephen's College. He will be ordained at the Alberta University as a priest to work on his doctorate here.

Seeking Damages Totalling \$23,500

Damages totalling \$23,500 are sought in a supreme court action filed Monday at the court house by the law firm of Patten and Beall, St. Paul, on behalf of the public administrator for the judicial district of Edmonton, administrator of the estate of John and Annie Skurhan, formerly of Edmonton. Defendant to the action is Sebastian Loranger, executor of the estate of Benoit Marchand, formerly of Bonaville.

The action arises out of an automobile accident on the St. Paul-Edmonton highway about three miles southeast of Ahmston in which John and Annie Skurhan, husband and wife, received injuries which resulted in death, and also in the death of Benoit Marchand, driver of the other automobile involved in the accident. The accident took place on Oct. 5, 1946.

A claim of \$10,000 is made for the estate of John Skurhan for loss of expectation of life, pain and suffering, and on behalf of Annie Skurhan a similar amount is claimed on the same grounds. At the time of his death Mr. Skurhan was employed as a section foreman for the CNR, and his monthly wage was approximately \$200.

A claim for \$3,000 is made on behalf of Elizabeth Skurhan, now Elizabeth Bradstreet, on the ground that she lost all means of support and living for a three-month period between the death of her father and her marriage.

Thugs Get \$200,000 In Club Hold-Up

PAINEVILLE, O., Sept. 30. — Club Monday night in Paineville's fatigue clothes punctuated a daring hold-up of the exclusive Paineville Club Monday night by firing shots into the ceiling, then made off with an estimated \$200,000.

New Polo Cases

VICTORIA, Sept. 30.—(CP)—Two new cases of poliomyelitis were reported to the British Columbia Department of Health during the week ending Sept. 29. The cases, which were reported this year to 237 cases. Ten cases have been fatal.

Friendships Flower Through The Mail

Friendships, like flowers, need regular attention. And well-timed letters can keep your relationships blooming with lasting strength. There are some general rules about letter writing which should be followed, however, if you want to write interesting and correct letters to your friends. Never put anything on paper which could cause you or anyone else embarrassment or discredit if made public. Don't read or show another person a letter written to you unless you are sure that the writer wouldn't mind.

That rules out love notes from the man in your life. His words are for you and not a gallery of girl friends, too.

Always use matched paper and envelopes and never write in pencil unless it is in your family when it is unsuitable or you are too sick to sit up. At one time or another you or your friends will be separated by distance which letters can ease. See sample letters — and hints for letter writing in our Reader Service booklet No. 27 and make the most of the mail.

Send 26c (coin) for "How To Write Letters For All Occasions" to The Edmonton Bulletin, Reader Service, or 60 Front St. West, Toronto. Print name, address, with zone, booklet title and No. 27.

Canadian-Built Aircraft Delivered

MONTREAL, Sept. 30.—(CP)—The first of 20 Canadian-built, pressurized North Star aircraft has been delivered to Trans-Canada air Lines, Inc. by the company today by President H. J. Symington. The big, four-motored craft, built by Canadian Limited to carry passengers and a crew of six, may be flown here on domestic routes and in transatlantic service. For some weeks prior, however, the new planes will be used for training purposes to familiarize crews with them.

For Next Four Years

Dollar Crisis Parley Seeking \$22 Billion

By Chester Bliven

Edmonton Bulletin Ottawa Bureau

OTTAWA, Sept. 30.—Some very definite hints concerning the framework of the long-term plan being drafted in London among British and Canadian government representatives to meet the dollar crisis are beginning to seep back to Ottawa.

FROM INFORMATION received Monday from a source close to the government, the general scheme shapes up like this: The United States is to be asked to guarantee sixteen billion dollars in aid in European self-rehabilitation, spread over a period of four years.

Other nations of North and South America and the British Commonwealth are to guarantee an additional six billion dollars, shared among three years over the four-year period.

Four billion dollars to be expended by the United States in the year 1948 largely in capital goods and emergency supplies including timber, railway equipment, cement, farm machinery, seed and fertilizers for devastated Europe.

THE MAJOR portion of this spending is to be distributed among the North and South American nations, as little as possible to be expended in the United States to avoid any further inflation of prices in that country, one of the chief problems.

Further, the distribution of this spending outside the United States would be an immediate aid in remedying the US dollar shortage in Canada, which invests not only Canadians but US industry by inability to surmount normal trade relations between the two countries. Just how much of this four billion dollar US credit for 1948 would go to Canada is a moot point of discussion. It would not likely be as much as a billion dollars (which represents the current rate of Canadian annual excess of purchases from the US to sales in that country). A good guess is that it might be in the figure of five hundred millions. A big share undoubtedly would go to

Pack Train Blazes New Overland Trail

PRINCE GEORGE, B.C. Sept. 30.—(CP)—What is probably the first commercial overland trip between Fort St. John and Fort McLeod has been completed by Carlson Bros. 10-horse pack train now resting in Salmon Valley. Word of the hazardous, trailless trip over barren high altitude country was brought here by W. N. (Rusty) Campbell, B.C. forest ranger stationed at Fort McLeod. The pack train paralleled the new Hart highway, 50 miles south, following trail all the way, the trip took eight days to cover 130 miles, and near the end men and horses were forced to swim the frigid waters of Parsnip River.

Brasil, a nation which took an active share in the military effort in Europe. IT SHOULD be emphasized that this is only a rough preview of the plan under discussion. Primarily, it depends on the ability of the US administration to obtain backing of public opinion in that country sufficient to persuade Congress. Further, the Canadian public might as well take the fact that it would mean some considerable sacrifice on their part in reducing current excess standards of living. It would mean that much of the production of Canada for the next year or two in such goods as lumber, farm machinery, railway equipment etc., badly needed in Europe, must be shared with Europe.

Now to accomplish that and at the same time restrain can further rise in the cost of "vital" is a problem for the country only secondary to its more intense phase in the United States.

WHENEVER you consider buying a new truck it will pay you to remember — "There's a Dodge 'Job-Rated' Truck to Meet Your Needs."

From a wide range of "Job-Rated" chassis models.

Your Dodge-DeSoto dealer has the engineering data to select the right truck to fit your job. To save you money.

To ensure economical performance, your truck will have "Job-Rated" power — the right one of 7 powerful Dodge truck engines, plus the right gear ratio. For greater safety, it will have "Job-Rated" brake equipment of the right type and size. It will have a frame, transmission, clutch, rear axle, and other units — "Job-Rated" to meet your needs.

For maximum economy of operation, for long-lasting dependability... get the one truck that best fits your job... the right Dodge "Job-Rated" truck.

Practically every hauling or delivery requirement can be met with either Dodge Standard Bodies or Dodge Chassis equipped with special bodies.

Western Air Lines Again Has Profit

LOS ANGELES.—Western Air Lines showed a net profit of \$329,000 from operations for the second quarter of 1947, as compared to a net loss of \$800,000 for the first quarter. Turrell C. Drinkwater, president, reported to stockholders.

"Preliminary figures for the months of July and August, 1947, indicate continued earnings and it is hoped that Western will be able to eliminate the entire first quarter deficit by the end of September," he said.

Drinkwater said that the sale price of \$7,000,000 for the Los Angeles route had enabled Western to receive substantial loan and to increase its working capital.

Holland expects to produce 20,000,000 crates this year.
